Den-Care Smile Center

As the Founder and owner of the Den-Care Smile Centers, it has always been my goal to devote my career to providing caring, quality dentistry for all of our patients with fees that are fair to all.

We have long participated with the reduced fee plans that many insurance companies offer, and so we are comfortable providing dental care at fees that provide our patients with more dental care for their dollars. We feel that it is our obligation to make quality care affordable.

It is all about caring for our patients.

G.R. Kozina, DDS
